The Home Modifications Resource Guide is a publication of the Maryland Department of Disabilities, Technology Assistance Program (MDTAP). This publication was made possible by Grant Number 90AG0006-01-00 from the Administration for Community Living. MD TAP is governed under the provisions of Public Law 108-364, and is provided as a cooperative service of the Department of Disabilities. MD TAP provides information on available products, devices, services and other resources to assist individuals with disabilities. No endorsements of these products, devices, services or resources are intended.

**This publication is available in alternative
formats upon request**

Funding Home Modifications

Most people pay privately for home modifications, but some sources can help you pay for home modification and repairs. Loans are available through several sources including: (1) the Special Loans Program, (2) the Rural Development Administration and (3) the Assistive Technology Loan Program. To qualify for a loan, you generally must own or be buying your home (rather than renting). There are also income, credit and sometimes age requirements. Grants are provided in some cases by the following sources: the Maryland Division of Rehabilitation Services, the Maryland Development Disabilities Administration, the Jill Fox Memorial Fund, and the United Cerebral Palsy Equipment Fund. Grants from government agencies involve often-lengthy application processes and waiting periods, restrictions on eligibility and other limitations. Private foundations like the Jill Fox Memorial Fund and the United Cerebral Palsy Equipment Fund have eligibility restrictions VVV are usually need-based grants, and usually only cover a fraction of the full cost. Discounted or free labor and materials are available through several sources. A few charitable organizations including Christmas in April, Hearts and Hands, the Home Ramp project, the Remodelers Council and the Professional Remodelers Organization assist with home repairs and modifications for free or at very low costs for people with low incomes. These projects select communities to serve each year, and do the work only at certain times, usually once a year.

Tax Benefits

Federal

You can deduct the cost of home modifications on your federal income tax if they are medically necessary. You need a written recommendation from a doctor to prove the expense is needed due to a disability or medical condition for yourself, a spouse or a dependant. You also need an appraisal from a competent real estate appraiser to prove how much value (if any) a home modification adds to your property. You can also claim a deduction for operating and maintaining the modifications (e.g., a wheelchair lift, stair glide, ramp), whether or not the modification qualified as a medical expense. If a medically necessary home modification does not increase the value of your property, you can deduct the full cost. If it adds value to your property, you can deduct the differences between the cost of the modifications and the value it adds to the property. For example, if a modification costs \$3,000, but adds \$1,000 of value to your property, you can deduct \$2,000.

State

Maryland offers a tax credit for expenses- including home modifications- related to adopting a child with special needs.

Local

Howard County Government Department of Finance: Livable Homes Tax Credit Program is available to Howard County Residents who are owners of real property. These residents are eligible to apply for credit for approved modifications to their homes. Examples of approved modifications include ramps, stair glides, and modifications to doorways and bathrooms. The credit allowed is lesser of either 50% of the cost or \$2,500. Applications must be submitted by April 1st. For additional information, visit the website www.howardcountymd.gov and review the Livable Homes Tax Credit FAQ or call 410-313-4076.

ADA Tax Credit for Businesses

A special tax credit is available to help smaller employers make accommodations required by the ADA. An eligible small business may take a tax credit of up to \$5,000 per year for accommodations made to comply with the ADA. The credit is available for one-half the cost of "eligible access expenditures" that are more than \$250 but less than \$10,250.

A full tax deduction, up to \$15,000 per year, also is available to any business for expenses of removing qualified architectural or transportation barriers. Expenses covered include costs of removing barriers created by steps, narrow doors, inaccessible parking spaces, restroom facilities, and transportation vehicles. Additional information discussing the tax credits and deductions is contained in the Department of Justice's ADA Tax Incentive Packet for Businesses available from the ADA Information Line at 1-800-949-4232. Information about the tax credit and tax deduction can also be obtained from a local IRS office, or by contacting the Office of Chief Counsel, Internal Revenue Service.

FEDERAL & STATE FINANCING

Federal

Community Development Block Grant (CDBG) Program

The CDBG program provides annual grants on a formula basis to entitled cities, urban counties and states to develop viable urban communities by providing decent housing and a suitable living environment, and by expanding economic opportunities, principally for low- and moderate-income persons. Some local housing agencies utilize portions of their CDBG program to pay for various kinds of home modifications. To contact your local CDBG grantee, call the US Department of Housing and Urban Development at

(202) 708-1112, or visit: www.hud.gov/local/md/community/cdbg/index.cfm or www.usc.edu/dept/gero/nrcshhm/directory/md.htm

HOME

HOME provides formula grants to States and localities that communities use—often in partnership with local nonprofit groups—to fund a wide range of activities that build, buy, and/or rehabilitate affordable housing for rent or homeownership or provide direct rental assistance to low-income people. For more information visit: www.hud.gov/offices/cpd/affordablehousing/programs/home

State

The Maryland Housing Rehabilitation Program

The Maryland Department of Housing and Community Development (DHCD) offer loans for home modifications. The purpose of the Maryland Housing Rehabilitation Program-Single Family (MHRP-SF) is to preserve and improve single-family properties and one-to-four unit rental properties. MHRP-SF is a program designed to bring properties up to applicable building codes and standards including: correct exterior and interior deficiencies; make handicapped modifications; correct health and safety violations; improve weatherization and energy conservation; and correct lead-based paint violations. For more information contact: 1-800-756-0119.

Accessible Homes for Seniors

The Maryland Department of Housing and Community Development (DHCD), in partnership with the Maryland Department of Aging (MDoA), coordinated a pilot project to promote accessibility related improvements to the homes of seniors, allowing seniors to remain in their homes and maintain independence. The program provides zero percent interest, deferred loans for a term of 30 years to finance accessibility improvements. The program will be funded by DHCD and is initially targeted in eleven counties throughout the State and marketed through the Area Agencies on Aging. For more information contact: 1-800-243-3425, or visit: www.dhcd.state.md.us/Website/Default.aspx

Centers for Independent Living

Centers for Independent Living can help you get the resources you need for home modifications. There are six centers in Maryland: IMAGE Center 410-982-6311 serves Baltimore City, Baltimore County, and Harford County; Independence Now serves Prince George's and Montgomery, 301-277-2839; Resources for Independent Living, 301-784-1774, serves Garrett, Allegany, and Washington Counties; Freedom Center, 301-846-7811, serves Frederick and Carroll Counties; Center for L.I.F.E., 301-884-4498, serving St. Mary's, Calvert and Charles Counties; and Accessible Resources for Independence, (410) 636-2274 serves Anne Arundel and Howard Counties.

Resources on the Web

NOTE: if you do not have Internet access, you may request copies of these materials from Maryland TAP at 1-800-832-4827 (voice/TTY).

“How to Build Wheelchair Ramps for Home” is a manual of design and construction for modular wheelchair ramps. This manual includes information about ramps and long-tread low-riser steps to improve safe home accessibility. The manual is available through the Metropolitan Center for Independent Living for \$15.00. Videos are also available on accessible building. For ordering information, please call 651-603-2029. Web site: www.wheelchairramp.org

The Center for Universal Design is a national center that evaluates, develops and promotes accessible design in building and related products.
