The Home Modifications Resource Guide is a publication of the Maryland Department of Disabilities, Assistive Technology Program (MDTAP). This publication was made possible by Grant Number 90AG0006-01-00 from the Administration for Community Living. MDTAP is governed under the provisions of Public Law 108-364, and is provided as a cooperative service of the Department of Disabilities. MDTAP provides information on available products, devices, services and other resources to assist individuals with disabilities. No endorsements of these products, devices, services or resources are intended.

This publication is available in alternative
formats upon request.

Funding Home Modifications

Most people pay privately for home modifications, but some sources can help you pay for home modification and repairs. This guide includes information on loans (which must be paid back to the lending institutions), grants (money provided for free), and labor organizations that provide the materials, construction, and labor to build or conduct the home modifications at no cost to the consumer.

Tax Benefits

Federal

You can [deduct the cost of home modifications on your federal income tax](#) if they are medically necessary. You need a written recommendation from a doctor to prove the expense is needed due to a disability or medical condition for yourself, a spouse or a dependent. If a medically necessary home modification does not increase the value of your property, you can deduct the full cost. If it adds value to your property, you can deduct the differences between the cost of the modifications and the value it adds to the property.

State

[Maryland Independent Living Tax Credit](#) -

The Maryland Department of Housing and Community Development administers a State of Maryland tax credit for residents of the state who have renovated a home to be more accessible. The tax credit may be up to 50% of the cost of the renovation up to \$5,000, whether it's your own home, the home of a family member, or a rental property.

Local

[Howard County Government Livable Homes Tax Credit Program](#) is available to Howard County Residents who are owners of real property. These residents are eligible to apply for credit for approved modifications to their homes. Examples of approved modifications include ramps, stair glides, and modifications to doorways and bathrooms.

ADA Tax Credit for Businesses

A special tax credit is available to help smaller employers make accommodations required by the ADA. More details and appropriate forms can be found [online at the IRS website](#).

Resources on the Web

NOTE: if you do not have Internet access, you may request copies of these materials from Maryland TAP at 1-800-832-4827 (voice/TTY).

“How to Build Wheelchair Ramps for Home” is a manual of design and construction for modular wheelchair ramps. This manual includes information about ramps and long-tread low-riser steps to improve safe home accessibility. The manual is available through the Metropolitan Center for Independent Living for \$15.00. Videos are also available on accessible building. For ordering information, please call 651-603-2029. Web site: <http://www.klownwerkz.com/ramp/default.htm>

The Center for Universal Design is a national center that evaluates, develops and promotes accessible design in building and related products. Website: www.ncsu.edu/ncsu/design/cud/about_ud/udprinciples.htm

FEDERAL & STATE FINANCING

Federal Resources

Community Development Block Grant (CDBG) Program

The CDBG program provides annual grants on a formula basis to entitled cities, urban counties and states to develop viable urban communities by providing decent housing and a suitable living environment, and by expanding economic opportunities, principally for low- and moderate-income persons. Some local housing agencies utilize portions of their CDBG program to pay for various kinds of home modifications. To contact your local CDBG grantee, call the US Department of Housing and Urban Development at (202) 708-1112, or visit: www.hud.gov/local/md/community/cdbg/index.cfm or www.usc.edu/dept/gero/nrcshhm/directory/md.htm

HOME

HOME provides formula grants to States and localities that communities use—often in partnership with local nonprofit groups—to fund a wide range of activities that build, buy, and/or rehabilitate affordable housing for rent or homeownership or provide direct rental assistance to low-income people. For more information visit: www.hud.gov/offices/cpd/affordablehousing/programs/home

State Resources

Maryland WholeHome

The Maryland Department of Housing and Community Development (DHCD) offers loans for home modifications. The purpose of the Maryland WholeHome Program is to preserve and improve single-family properties by providing access to funding to correct exterior and interior deficiencies; make modifications for increased home accessibility (grab bars, ramps, etc.); correct health and safety violations; improve weatherization and energy conservation; and correct lead-based paint violations. For more information contact: 1-800-638-7781.

Accessible Homes for Seniors

The Maryland Department of Housing and Community Development (DHCD), in partnership with the Maryland Department of Aging (MDoA), coordinated a project to promote accessibility related improvements to the homes of seniors, allowing seniors to remain in their homes and maintain independence. The program provides zero percent interest, deferred loans for a term of 30 years to finance accessibility improvements. The program is available throughout the State and marketed through the Area Agencies on Aging.

Maryland Medicaid Waivers

Most states offer Medicaid programs that cover home modifications to enable elderly and / or individuals with disabilities to remain living at home. Some waivers pay for

assistive technologies such as special equipment for a washroom and adaptive lighting. Other waivers pay for physical modifications to the home, such as the addition of wheelchair ramps, stairlifts, and walk-in or wheelchair accessible bathtubs and showers. These modifications are more formally referred to as Environmental Accessibility Adaptations. Please note, unlike nursing home Medicaid, waivers are not an entitlement. (An entitlement means that anyone eligible will receive care). Typically, waiver programs have limited participant enrollment. And sometimes waiting lists exist for services. [For a complete list of Medicaid Waivers in Maryland that include home modifications, click here.](#)

[HomeAbility](#)

HomeAbility is a special product designed to assist Maryland homebuyers with disabilities to finance their home purchase. This loan product is made available through the Maryland Department of Housing and Community Development.

Centers for Independent Living

Maryland Centers for Independent Living can help you get the resources you need for home modifications. There are seven centers in Maryland:

- IMAGE Center 410-982-6311 serves Baltimore City, Baltimore County, and Harford County;
- Independence Now serves Prince George's and Montgomery, 301-277-2839;
- Resources for Independence, 301-784-1774, serves Garrett, Allegany, and Washington Counties;
- Freedom Center, 301-846-7811, serves Frederick and Carroll Counties;
- Southern Maryland Center for Independent Living, 301-884-4498, serving St. Mary's, Calvert and Charles Counties;
- Bay Area CIL serving all 8 counties on the Eastern Shore from Somerset to Kent; and Accessible Resources for Independence, (410) 636-2274 serves Anne Arundel and Howard Counties.

Wheel Pad

14 Castle Hill Rd,

Wilmington, VT 05363

Phone: 802-464-3957

Email: rj@wheelpad.com

Website: <https://www.wheelpad.com>

Description: Wheel Pad designs home attachments and backyard tiny houses that make any property a safe and cozy universally accessible place for people with mobility challenges. We aim to help people stay in their homes: whether they are seeking to age in place, recover after an accident, or quickly add more square footage for a growing and changing family. Wheel Pad has two main products: The +Add PAD home attachment and the Personal Accessible Dwelling (Affectionately, The PAD) accessible tiny house. Both of these models exceed ADA specifications. They come with a track in the ceiling that is compatible with any lift on the market that can take you from the bed area to the bathroom. The bathroom itself is a full wet room to avoid transitioning in and out of the shower, and allows ample space for an aide if needed. The PAD also has an accessible kitchenette for more independent living.
